• Check your custom fit in this guide or at www.thule.com

We are constantly fitting new vehicles. If you cannot find your vehicle model listed in this guide, please find the latest updates in the Buyer's Guide at **www.thule.com**.

Thule One-Key System

Make life easier and save yourself the trouble of keeping track of different sets of keys for your roof rack, ski rack, bike rack or roof box. Exchange the lock cylinders in all your Thule products and use the same key for all. Simply ask for Thule One-Key System!

SPECIFICATIONS

Available in four versions: 4 locks (544), 6 locks (596), 8 locks (588) and 12 locks (452).

› Roof racks

Thule WingBar Edge

Thule WingBar Edge has a low profile that perfectly complements the car's roofline. The advanced aerodynamic shape combined with TrailEdge and WindDiffuser minimizes noise and improves fuel efficiency. Thanks to its sleek and streamlined design, Thule WingBar Edge is also the ideal solution for keeping the rack on the car even when it's not in use.

Thule WingBar Edge 958X

SPECIFICATIONS

Available in two colors and five lengths.
Aluminum: 9581, 9582, 9583, 9584, 9585
Black: 9581B, 9582B, 9583B, 9584B, 9585B

FEATURES

■ Thule WingBar in new configuration, using airplane technology for best aerodynamic properties. ■ The low profile and close fit to the roof creates a stunning look, also making it safer when driving under low passages. ■ Smoothly arched for a slim fit. ■ Universal fit by the use of telescopic feet (50 mm/side). ■ Superior safety thanks to the torque key. ■ Double molded plastic caps for best appearance and easy fitting. ■ Easy handling with the pre-assembled system and integrated foot (complete pack). ■ Theft protected and universal fit through steel strap technology.

product design award 2011

Thule WingBar Edge 959X

SPECIFICATIONS

Available in two colors and six lengths.
Aluminum: 9591, 9592. 9593, 9594, 9595, 9596
Black: 9591B, 9592B, 9583B, 9594B, 9595B, 9596B

FEATURES

■ Thule WingBar in new configuration, using airplane technology for best aerodynamic properties. ■ The low profile and close fit to the roof creates a stunning look, also making it safer when driving under low passages. ■ Thule WingBar Edge is smoothly arched for a slim fit. ■ Universal fit by the use of telescopic feet (50 mm/side). ■ Double molded plastic caps for best appearance and easy fitting. ■ Easy handling with the pre-assembled system and integrated foot, complete with existing 753-kit (2-pack).

product design award 2011

Thule Rapid System

Our safe and universal roof rack system offers multiple bar options to match your specific need. Thule Rapid System fits the majority of the car park and has solutions for all different roof types.

Thule SlideBar

The innovative Thule SlideBar makes loading of heavy items simple. And because it slides out on either side of the car body, it protects your car from damage and you from getting dirty.

SPECIFICATIONS

Available in three lengths: 127 cm (891), 144 cm (892) and 162 cm (893).
T-track adapter required when using Thule roof mounted load accessories.

product design award 2011

reddot design award winner 2011

FEATURES

■ Bi-directional sliding (60cm in each direction), for easiest loading of bulky load on car roof. ■ Bi-directional sliding, to avoid scratches in car and dirt on your clothes. ■ One-hand release functionality with rubberized grip-panels for most ergonomic user interface. ■ Maximum user security through snap-lock functionality & red-colour indications for open and closed position. ■ Premium Scandinavian design rewarded with Red Dot and If-Design award.

Thule WingBar

The most silent and safe load bar. Inspired by aircraft wings, the Thule WingBar is safe, aerodynamic and extremely silent.

SPECIFICATIONS

Available in five lengths: 108 cm (960/960B), 120 cm (961/961B)
127 cm (969/969B), 135 cm (962/962B), 150 cm (963).

FEATURES

■ Extremely silent through wing shaped profile in combination with WindDiffuser technology that reduces air resistance and improves fuel economy. ■ Easy to assemble. ■ Easy fixation of accessories through top T-track and innovative end plug design.

Thule SquareBar

If you only use your bar once in a while, the standard Thule SquareBar, made of steel and coated in black plastic for a durable finish, might be right for you.

SPECIFICATIONS

Available in eight lengths: 108 cm (760), 120 cm (761) 127 cm (769),
135 cm (762), 150 cm (763), 163 cm (765), 200 cm (766), 220 cm (767)

› Roof Rack Feet

Normal Roof

Thule Rapid System 754
The most secure and exclusive roof rack for cars without railings or fixation points.

Fixed Points/Flush Rails/T-Track

Thule Wingbar Edge 959X
The low-profile roof rack with aerodynamic and integrated design.

Thule Rapid System 751
A smart universal roof rack foot for cars with pre-installed fixation points.

Thule Rapid System 753
An elegant, lowered universal roof rack foot for cars with pre-installed fixation points or flush railings.

Roof Rails

Thule Wingbar Edge 958X
The low-profile roof rack with aerodynamic and integrated design.

Thule Rapid System 757
The world's most sold roof rack for cars with normal-sized roof railings.

Thule Rapid System 775
The universal, elegant railing rack that fits the broadest range of railing dimensions.

Thule Smart Rack. with SquareBar 784/785 with AluBar 794/795
A universal, easy to use complete packed railing rack.

Rain Gutters

Thule 951/951-2
A classic roof rack for cars with rain gutters.

The product numbers represent the components you need to complete your roof rack.

Bar
Load bar in sets of two. In steel or aluminium. For information see page 4–5.

Foot + Short Roof Adapter (SRA)
Roof rack feet in sets of four. For detailed information, see page 6. The SRA is an adapter for cars with short roof, to increase the distance between the load bar. (Only needed for some car models and only in combination with Thule Rapid System 754).

Kit
Roof rack kit in a set of four. For car specific fit of the roof rack feet to the car roof.

If there is a letter on your specific bar in the Info column, be sure to find out what it means below.

i Important information regarding your roof rack, see table to the right.

A Max load 30 kg

B Max load 40 kg

C Max load 50 kg

D Max load 60 kg

If column is blank, load capacity is over 60 kg. Please check the fitting instruction for information.

H The distance between the roof rack bar does not permit the fitting of a roof box.

K Holes have to be drilled in the roof.

L Only permits fitting of one roof rack bar.

M Without mounting holes in the door frame.

N WingBar Edge has an attractive low profile to the car roof. Therefore care must be taken when fixing additional accessories, such as roof boxes, so as not to interfere with any existing attachments (like antennas) on the vehicle.

In some cases we offer complete packed solutions.

Smart Rack
A complete roof rack in one single package.

› Professional Racks

Your dynamic platform for heavy-duty purposes

Thule Professional is a fully integrated system, so tailoring it to your specific needs and way of working is quick and easy. All you need is the make, model and year of your work Van – then follow the recommendations presented in this easy-to-use fit guide. All products in this guide are tested on each specific vehicle model and Thule guarantees that the recommended products will fit your vehicle. If you follow our recommendations, we can assure you a high safety standard.

Car make
Look up the page where your vehicle make, model and model year are listed. All makes appear in alphabetical order.

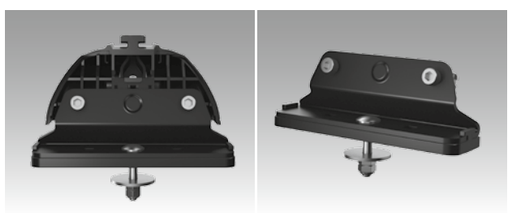
Recommendation
The recommended solution for your vehicle includes all necessary parts for a complete Heavy-Duty roof rack solution. For some vehicles, we list solutions with 1, 2, 3 and 4 bars.

Thule Artificial Fixpoint 543

Universal fix point kit for fixation of Thule Rapid System 751 & 753 feet.

SPECIFICATIONS
Fits only 751 and 753 feet

FEATURES
■ Fixpoint kit to be fixated on covers made out of strong materials like glass fibre, aluminium, plastic or steel. ■ City crash approved for 75 kg according to ISO-norm. ■ Artificial fixpoint to be combined with Thule Rapid System roof rack feet 751 or 753 feet and suitable load bars. ■ All parts in contact with the car have soft coating to prevent marks and scratches.



Thule ProBar

The load bar with a unique tri-slot design for fitting of multiple accessories

SPECIFICATIONS
Available in six lenghts: see below

FEATURES
■ The tri-slot design gives great flexibility and opens up the possibility of combining a range of different load accessories that can be used independently of each other or together. ■ In the top track, you can for example fit the Thule Load Stop, Thule Ladder Tilt, Thule Ladder Holder etc. You mount each accessory in just a few seconds. Just slide it in and lock in place. ■ In the rear track you can very easily alter between Thule Roller, Thule Foldable Load Stop and Thule Eye bolt. Or let them be mounted together. And you will have the top of the Thule Heavy-Duty Bar free for your load.

› Rear Door-mounted Bike Racks

These racks can easily be mounted on the boot of a car with quick-mount attachments.
Rubber frame holders keep the bikes firmly in place and protect the frames from scratches.
When not in use, simply fold and store the rack in the car or garage.

Thule RaceWay 991/992

The most secure and easiest to use rear door bike rack designed for hatchbacks, sedans, stations wagons and MPVs (for 2–3 bikes).

FEATURES

■ SureTight ratcheting cables with locks provide maximum fastening security to your vehicle. ■ Patented NoSway cages prevent bike-to-bike contact with rubber bumpers for frame protection. ■ Molded rubber pads provide firm hold to vehicle and protect against scratches. ■ Narrow cradle arms hold a variety of bike frames including smaller kids bikes. ■ Lockable bike-to-bike rack and bike-rack-to-vehicle (locks included). ■ Folds up flat for convenient storage.

Thule BackPac 973

The high standard rack with great flexibility designed for vans, minibuses and MPVs (for 2–4 bikes).

FEATURES

■ Carries 2 bikes, 3 by adding Adapter 973-23 and 4 by adding Adapters 973-23 + 973-24. ■ The raised position of the bike rack keeps the rear lights and number plate visible. ■ All bike frame holders are detachable for convenient mounting of bikes. ■ All parts in contact with the car and bikes are coated with rubber for extra protection. ■ Outer bike position lockable to bike rack, bike rack lockable to car with Thule Lock 567.

Thule ClipOn High 9105/9106

The fast mounting and foldable bike rack designed for station wagons and hatchbacks (for 2 bikes).

FEATURES

■ Easy to mount to the boot of a car with a unique snap-on system. ■ The raised position of the bike rack keeps the rear lights and number plate visible. ■ All bike frame holders are detachable for convenient mounting of bikes. ■ All parts in contact with the car and bikes are coated with rubber for extra protection. ■ Quickly folds for easy storage.

Thule ClipOn 9103/9104

The snap-on bike rack with smart features, perfect for station wagons and hatchbacks (for 3 bikes).

FEATURES

■ Easy to mount onto the boot of a car with a unique snap-on system. ■ All parts in contact with the car and bikes are coated with rubber for extra protection. ■ Adjustable quick release straps hold the wheels securely in place. ■ Quickly folds up for easy storage.

We have tested all the listed recommendations individually

Please note that if you don't find your car in this guide, it may have several reasons:
1. Your car has a plastic/weak/large spoiler
2. Your car has a plastic or a divided rear door
3. The car manufacturer does not allow the fitting of rear door-mounted bike racks
4. Your car is very new on the market (less than 6 months)

Please always check online at ***www.thule.com***

Car manufacturers market their models with different features in different countries around the world e.g. a chrome part or spoiler is added on the rear door. Due to weakness in plastic spoilers, rear door-mounted bike racks are not allowed to be used on these cars, even if they are recommended in this guide. Thule does everything to take this into consideration but can not be held liable for these local deviations.

1	2	3	4	5	6
Look up your car make, model type and year.	This is the Thule bike rack model you need.	To fit it to your car, you need an Adapter Kit for some racks.	Here you can see if you need an extension adapter to fit additional bikes.	If a lock for the bikes is not included, we recommend securing them with our Thule Cable lock 538.	Depending on the car model, tail lights and turn signals as well as the license plate can be covered. In this case we highly recommend to use our Thule Lightboard 976 to replace them.

Accessories

Thule Lockable Knob 526/527

An accessory to make the bike frame holders lockable (if not standard).
526 = 2 pack. 527 = 4 pack.

Thule Cable Lock 538

Plastic coated, 180 cm long steel cable that locks almost anything. With lock protection.

Thule Wheel Adapter 9772

Protects the rim on mountain bikes and helps secure the wheels of road bikes. Place between the strap and the rim.

Thule Bike Frame Adapter 982

For easiest possible fitting of bikes with non-standard frames (e.g. ladies' bikes, BMXs, downhill bikes).

Thule Lightboard 976

Substitutes the most important rear lights on your car (7-pin connector). Fitted by using straps on the rear door-mounted bike racks. The car needs to have either a 7-pin or a 13-pin electric outlet to connect the light board to the car.

Thule One-Key System 544/588/596/452

Avoid the hassle of several different keys, upgrade to Thule One-Key System and get one key for all Thule products.

Thule BackPac Adapter 973-23 and 973-24

With adapter 973-23 the capacity of Thule BackPac increases from two to three bikes and with adapter 973-24 from three to four bikes.

› Thule Safety & Warranty

Tested the hard way for tough roads

We'll never know what adventures you'll be taking your equipment on. That's why we develop our products to manage any weather, any temperature, and any terrain in the whole world. We've come to the conclusion that nothing else will do. You can just imagine what our test centre looks like. Every new product is put through temperatures of icy northern cold and burning desert heat, long sessions of intensive UV radiation, a salt chamber for corrosion endurance, several pressure and capacity tests – and finally a machine that shakes it for a lifetime's worth, simulating two trips around the world in less than a week. Yes, it's kind of brutal. But that's the way the world is. And since we only give the sign of approval to products that have had the whole world against them (and survived it), it's no wonder we're international leaders in safety and durability – or that we even exceed the standards.

CITY CRASH

› Thule BringIt! Guarantee

The Thule BringIt! Guarantee will cover any defect or damage affecting your Thule product. Even damage caused by normal wear and tear or the natural discoloration of materials for 2 (two) years from the date of purchase by the original purchaser. The Thule BringIt! Guarantee gives you specific legal rights. It does not affect any statutory rights that you have as a purchaser of a defective product.

The Thule BringIt! Guarantee does not cover defects resulting from conditions beyond Thule's control. These include, but are not limited to, misuse, overloading, or from failure to assemble, mount or use the product or its accessory in accordance with Thule's written instructions, guidelines, and safety text. Nor does it cover damage to the user's vehicle, electronic devices, cargo, or to any other person or property.

Thule Extended Warranty

Thule's Extended Warranty applies to products and accessories produced by Thule and sold to the original purchaser under the brand name Thule. The warranty covers defects in materials or workmanship and, depending on the type of product, applies up to a certain number of years from the date of the original retail purchase. Please see below the specific length of the total warranty (Thule BringIt! Guarantee plus Thule Extended Warranty) for each product.

Subject to the limitations and exclusions described in this warranty, Thule remedies defects in materials or workmanship during the warranty period, by repairing or replacing (Thule's option) the defective component(s) without charge for parts or labor.

Carriers & Racks	2 Year Thule BringIt! Guarantee	Thule Extended Warranty	Thule Extended Warranty (Total number of years)
Bike Racks	Yes	+ 3 years	5 years
Roof Boxes & Baskets	Yes	+ 3 years	5 years
Roof Racks	Yes	+ 3 years	5 years
Water Sport Racks	Yes	+ 3 years	5 years
Winter Sport Racks	Yes	+ 3 years	5 years

Please note the following restrictions applicable to the Thule Extended Warranty:

- Thule does not cover defects resulting from conditions beyond Thule's control. These include, but are not limited to, misuse, overloading, or from failure to assemble, mount or use the product or its accessory in accordance with Thule's written instructions, guidelines, and safety text. Nor does it cover damage to the user's vehicle, cargo, or to any other person or property.
- During the period of the Thule Extended Warranty, we will not cover damages and/or defects resulting from typical wear and tear (for example brakes, tires and tubes, electrical parts, surface issues, faulty zipper tape, damaged buckles, coating peeling off and discoloration of fabrics).
- Thule does not cover damages resulting from abuse (such as tears, cuts, and holes in the fabric) and cosmetic damage (such as scratched or stained fabrics).
- Other damage not covered is damage caused by airlines or other transit damage (such as pressure damage; tears, cuts, and holes in the fabric; damage to the wheel covers, handles and other hardware of the bag). Damage claims in transit cases should be filed against the carrier.
- The purchaser will be responsible for the cost of returning the component(s)/product(s) and the proof of purchase back to the place where the product was purchased.
